Getting to Know Director Plus

* The USB-C OUT port supports both input and output: it supports file transfer with computers, UVC/UAC output, and DP signal output to monitors, and also functions as an input port for connecting A/V devices, keyboards, etc.

* Please ensure that the device is powered on prior to connecting the USB-C OUT port to a computer.

Starting to Use Director Plus

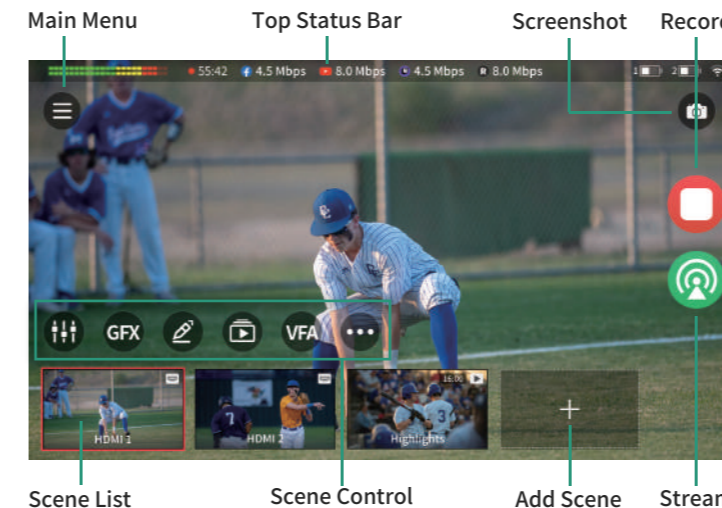

- 1. Connect antennas**
Connect the supplied 5G and Wi-Fi antennas to the unit.
Note that the antennas for WiFi and 5G are not interchangeable.
- 2. Connect power**
To power Director Plus, connect the supplied power adapter to the unit and a power source, or install one or two NP-F battery packs.
- 3. Power on the device**
Long-press the power button for 3 seconds to power on, and follow the on-screen guide to finish initial settings.

- 4. Connect audio/video**
Director Plus provides four HDMI input ports, one USB-A 3.0 port, two USB-C 3.0 ports, one headphone jack and two Mic/Line in jacks. Connect your video and audio devices to these ports as needed. IP sources can also be used with Director Plus after connecting to a network.

- 5. Connect network**
Director Plus must be connected to a network first in order to stream to destinations. You can plug in an Ethernet cable, or insert a SIM card or USB modem, or go to "Settings > Network > WLAN" to connect to a wireless network.

- 6. Start exploring**
When everything above is ready and you have turned on your device, follow the instructions on the main screen to start exploring around the device. You can create impressive productions, recordings and live streams. Visit "Help" for more detailed information.

Note: The internal storage of Director Plus is 128 GB. You may need to insert a microSD card or USB SSD for longer recording. Please go to "Settings > Record" and set the save path.

Accessing the Web UI

- To access the Web UI, your device must be connected to your network. Swipe down from the top of the screen to open the Control Center, and then you can view the connected network and its IP address. Tap the network name for more settings if needed.
- Using a computer on the same network, open a browser and access the specified IP address.
- Enter the user name **Admin** and password **Admin** to log in. After logging in for the first time, please change the default account password promptly to ensure device security.

Director Utility App

The **Director Utility** app provides expanded controls over your Director Plus device from your phone. It can also turn the camera of your mobile device into another input source to Director Plus. Additionally, it can turn a tablet into an external screen to display different content of the device, or even control it via the tablet.

- 1. Director Utility** is available for download on the App Store and Android App marketplace, or you can scan the QR code to download it.
- Ensure that your phone and Director Plus device are connected to the same network.
- You can go to "Help > Director Utility App" on your Director Plus device for more details.

Warranty
