Conflict Minerals & Responsible Sourcing Statement

To Whom It May Concern,

Nanjing Magewell Electronics Co., Ltd. is committed to sourcing materials from socially and environmentally responsible supply chains. We do not knowingly source products or accessories containing conflict minerals — tin, tantalum, tungsten, and gold ("3TG") — that directly or indirectly finance armed conflict or human rights abuses in the Democratic Republic of the Congo (DRC) or adjoining countries.

Based on our reasonable country of origin inquiry and supplier due diligence, we have no reason to believe that the 3TG minerals used in our products originate from conflict-affected or high-risk areas in the DRC or adjoining countries. Our procurement team works closely with direct suppliers to ensure compliance with applicable regulatory requirements.

We expect our suppliers to adhere to responsible business practices, including compliance with applicable labor, environmental, and anti-corruption laws, and to provide information about the origin of materials upon request. We will continue to monitor and review our supply chain practices as part of our ongoing compliance efforts.

This statement applies to all Magewell operations and is periodically reviewed to ensure its continued effectiveness.

Sincerely,
Nanjing Magewell Electronics Co., Ltd.
